SKYWARN
Weather Spotter Class

The effects of severe weather are felt every year by many Americans. To obtain critical weather information, NOAA's National Weather Service (NWS), part of the U.S. Department of Commerce, established SKY-WARN® with partner organizations. SKYWARN® is a volunteer program with nearly 290,000 trained severe weather spotters. These volunteers help keep their local communities safe by providing timely and accurate reports of severe weather to the National Weather Service.

This course will prepare the volunteer to quickly and efficiently identify and report hazardous weather.   There is no fee for this course; everyone is invited to attend.

To be held at:

American Red Cross

Thursday March 27th, 2014
6:30—8:30 PM

352 Church Ave SW
Roanoke, VA 24016
